

Introduction to Basic Data Structures

Module 2.5: Practice Day 01

(Codeforces Links)

Topics:

1. Vector

Codeforces Problem Links:

1. [L. New Array](#) (Solve using vector)
2. [F. Reversing](#) (Solve by reversing the vector)
3. [C. Replacement](#) (Solve using vector)
4. [D. Counting Elements](#) (Solve using vector and built in functions)
5. [J. Count Letters](#) (Use vector as frequency array)
6. [Y. Range sum query](#) (You'll get TLE, no problem, don't ask for support)
7. [Z. Binary Search](#) (You'll get TLE, no problem, don't ask for support)
